Additional Provisions: The Department of Justice continues to have the two additional legislative proposals drafted by my Administrative Law Division under review. Nevertheless, we think it useful to include these initiatives in the draft Authorization Bill at this time for the purposes of preliminary coordination. Once DOJ transmits its comments to us, either formally or informally, we will of course advise you of the result.

2. With respect to the additional initiative proposed by my Administrative Law Division concerning a possible delegation of authority from the General Services Administration, my personnel have already been in contact with Chief, Legislation Division, OLL concerning the required sectional analysis and other background documentation.

3. Once again, your very helpful comments are sincerely appreciated.

Stanley Sporkin
